## Technical Competencies and Relevant School Projects

Programming: Python, Java

### Longest Word Pyramids Winter 2021

- Wrote code to solve the problem of finding as many longest word pyramids as possible and efficiently in a given dictionary
- My original algorithm did not terminate given a large input, while my final solution terminated in seconds and returned a feasible answer

### Predicting Stock Prices based on Reddit Chat Rooms Winter 2021

- Collaborated with a group to obtain data through web scraping, process text, classify, model, and predict whether a stock price would go up or down based on the sentiment in the Reddit post that mentioned said stock
- Predictions were 63% accurate, while the baseline classifier we used was just 52% accurate
